Welcome to our November Newsletter

October was a crazy busy month for us, we attended the Knitting and Stitching show at Alexandra Palace, created a Halloween Stitch along and have spent a lot of time packing our Advent calendars! the finishing line is in site but hopefully things will be calmer so we can concentrate on our Christmas offers.

We will be in Harrogate at the end of November for the knitting and stitch show both Sarah and i will be there so please come say hi!

Quick update on post service, the postal strikes by Royal mail staff (which was on our last newsletter) have been updated and there are no strikes for the first 2 week in November, as far as we are aware at the moment all other strikes will be continuing as normal but we are planning to have all our Advent calendars currently on order sent before those strikes kick in (with many being sent this week)

Advent Calendars

If you have tried to contact us over the past week or two, there has probably been no one in the office. We have been busy packing all of our advent calendars - by hand - as you can imagine this has been quite time consuming but we can't wait to see what everyone has produced.

The calendar includes 3 cute little projects and lots of goldwork goodies. The projects are suitable for all levels but there are plenty of extra threads and wires to embellish the projects more or use for other projects in the future.

We only have only made 100 Advent calendars and we still have a few left so if you would like one don't wait get yours today by clicking the button below

Top Sellers for October

We had a really busy month in October, especially with the Advent Calendar going on sale. Here are the most popular items purchased in October

Pearl Purl 1

Always super popular, and one of the main wires in Goldwork. Great for outlining and comes in several sizes super, fine. 2 and 3 all which can be found here <https://golden-hinde.co.uk/pro...> Pearl purl is also available in Silver and Copper, plus we now have a range of colours to choose from so the options are endless.

Bright Check 8

Who doesn't like Bright Check? It really does bring the sparkle to any piece of work, usually cut in to chips and can cover an area large or small, it always catches the light. Bright check 8 has been super popular in October and this is the smallest size in the range. We also stock size 4 (the largest) and 6, all of which are also available in Silver and Copper.

Super Purl Purl

Just like the Pearl purl 1 all the pearl purls are popular, and one of the main wires in Goldwork. The other sizes can be found here <https://golden-hinde.co.uk/pro...> Pearl purl is also available in Silver and Copper,

Honey translucent thread

This is the main couching thread that we use as it seems to disappear against your treads and wires. Honey is ideal for use with Gold threads but we do have a range of colours that can be used such as white

for Silver threads and wires and terracotta which is great for copper. If you want the couching to be visible yet subtle then a contracting colour can be used
